Overview!

Motivated and detail-oriented **Information Technology** student, with a strong foundation in Data Analysis , web development and a growing interest in back-end technologies and machine learning. Proficient in **Python Libraries, SQL, MS Excel**, and **Data Sceince**, with experience using frameworks such as **Data Visualization** and **Machine Learning**. Recently explored fields such as **MERN Stack** and **Restful APIs** as well as **Java** to expand FULL STACK development capabilities.

Education

Rashtrasant Tukdoji Maharaj Nagpur University , B.Tech. in Information Technology	Nov 2022 - 2026
• CGPA: 7.027	
HSC Board , Dr. MK Umathe College, Nagpur	2022
• Percent: 74.5	
CBSE Board , School Of Scholars Wanadongri, Nagpur	2020
• Percent: 82.4	

Experience

Intern The Developers Arena	Oct 2025 - Jan 2026
• Python Developer Intern	
Intern Dnnovate Pvt. Ltd.	Jan 2024 - Mar 2024
• Game Design And Development	

Projects

Plant Disease Detection System

- Built a machine learning model to detect plant diseases from leaf images using image classification techniques. Used convolutional neural networks (CNN) for accurate prediction and trained the model on a public data set.
- Tech Used: Python, Machine Learning, CNN

Learning Management System (LMS)

- Designed and developed the front-end of an LMS platform that allows students to access course materials, track progress, and interact with the interface. Focused on responsive design and user-friendly navigation.
- Tech Used: HTML, CSS, JavaScript

Healthcare Risk Stratification App

- Built and Deployed a healthcare risk stratification app focusing on transformiing healthcare data into actionable insights predicting patient risk categories through a clean interactive web interface.
- Tech Used: Python , Data Analytics and Machine Learning

VisionCartAI Smart optimized Search Engine

- Built a Search Engine for online shopping using u net segmentation algorithm which provides better search results with the help of a image query
- Tech Used: Python,Machine Learning, CSS, U-NET Segmentation Algorithm, Computer Vision, FAISS

Tech Stack

Tech Stack: Python, Machine Learning, Deep Learning, Data Analytics, Data Science, SQL, MS Excel, Mern Stack, Full Stack and Web Development and Git/Github.
